

Eclipse Releases New Line of Mastering Productivity Tools

February 12, 2002

M3/REPLITECH – Los Angeles, California – Eclipse, the new leader in DVD and CD mastering software and hardware systems announced the release of several new products designed to improve the productivity of DVD and CD mastering facilities. Eclipse revolutionized the DVD and CD premastering and QC industries with its user-friendly, technologically advanced software and hardware products. With almost one thousand customers worldwide, Eclipse has earned a reputation for providing innovative, problem solving products for analyzing, copying and verifying DVD and CD masters.

Eclipse will be demonstrating several new productivity tools at their booth at M3/REPLITECH. These exciting new products are designed to help DVD and CD mastering facilities detect problems earlier in the process, saving valuable time and resources. To view these new productivity tools and how they can improve your mastering process, visit the Eclipse booth (#1109) at the M3/REPLITECH Show in Los Angeles.

- ◆ **ImageDecoder** – This innovative new system analyzes EFM signals from an LBR or other source to provide real-time analysis of the output signal to Book and format specification.
- ◆ **ImageMapper** – This new software module allows customers to mount hard drive and tape DDP images for viewing and accessing files before mastering images.
- ◆ **VirusCheck** – A convenient plug-in allows the use of standard virus checking software to run concurrently with Eclipse's ImageAnalysis and ImageCopy Software in the same process step.
- ◆ **ImageIntegrity** – A software module that ensures data integrity by using auto-verify-after-copy and sophisticated checksum algorithms to protect images, critical for electronic file transfers of images.

About Eclipse:

Eclipse, recognized as the new leader in DVD and CD mastering encoders and software provides leading edge capability with a reputation for technical excellence and world-class customer support in its line of mastering, premastering and QC verification tools. Eclipse is the recipient of three TapeDisc Business Magazine Technical Excellence Awards for 2002. The awards were presented for excellence and innovation for its EclipseSuite Software, ImageEncoder Mastering System and EclipseSuite

CSS Verification Plug-In products. For more information about Eclipse and these products please visit our web site at www.eclipsedata.com.
