

EclipseSuite V2.0 Released

May 13, 2003

Pleasanton, California: Eclipse announced the release of a new version of its award winning EclipseSuite Software. EclipseSuite Software has become the standard of the industry for analyzing, copying and verifying DVD and CD masters because of its user-friendly interface and ability to perform sophisticated processes without the need for proprietary equipment. EclipseSuite provides content authors and mastering departments with a quality software tool for analyzing, repairing, and verifying DVD and CD masters

EclipseSuite V2.0 benefits:

- ◆ Compatible with Microsoft™ Windows 2000 and Windows XP operating systems.
- ◆ Able to copy images to recordable DVD devices.
- ◆ Record CD-Text information to CD-R and CD-RW discs, and process images according to the revised DDP 2.0 standard.
- ◆ Support of several new CD readers, CD writers and DVD-R writers.
- ◆ New plug-in modules to support several new copy protections.
- ◆ More than 50 new rules and behaviors added.

EclipseSuite V2.0 ensures Eclipse will maintain its leadership by providing the DVD and CD manufacturing industry with innovative software solutions.

About Eclipse
